

Звіт про відповідність вимогам оформлення

Стаття 3 — інваріантність ознак CS2/CSGO

Видання №69 «Вісник Львівського університету. Серія прикладна математика та інформатика»

Файл: article_en.tex

Сформовано: 2026-09-12 12:06

Коміт: 328a0f6 2026-09-12

Результат: **78/78** перевірок пройдено

Зауважень немає — усі перевірки пройдено.

Збирання документа (6/6)

- OK pdflatex rebuilds article_en.tex from scratch without errors
- OK all \ref/\cite resolve
- OK no text past the measure by more than 5pt
- OK A4 page size (595.276 x 841.89 pts)
- OK no two text lines overlap on the page
- OK length: 9 pages (journal No. 69 publishes no limit — confirm with the editors)

Вимоги видання №69 і цілісність шаблону (36/36)

- OK Key words: 7 keywords (journal limit 7)
- OK Ключові слова: 7 keywords (journal limit 7)
- OK template block UdcEng: 1 (expected 1) — metadata must appear in both languages
- OK template block Title: 2 (expected 2) — metadata must appear in both languages
- OK template block Authors: 2 (expected 2) — metadata must appear in both languages
- OK template block Organization: 2 (expected 2) — metadata must appear in both languages
- OK template block Abstract: 2 (expected 2) — metadata must appear in both languages
- OK ORCID for both authors: found 2
- OK ORCID 0000-0001-7316-7424 passes the MOD 11-2 check digit
- OK ORCID 0009-0001-7890-8575 passes the MOD 11-2 check digit
- OK no placeholder ORCID left in the text
- OK exactly one bibliography (the journal template provides one)
- OK figure file present: figures_en/invariance_summary.pdf
- OK figure is PDF (journal requirement): figures_en/invariance_summary.pdf
- OK figure file present: figures_en/feature_distributions.pdf
- OK figure is PDF (journal requirement): figures_en/feature_distributions.pdf
- OK figure file present: figures_en/side_comparison.pdf
- OK figure is PDF (journal requirement): figures_en/side_comparison.pdf
- OK figure file present: figures_en/pca_projection.pdf
- OK figure is PDF (journal requirement): figures_en/pca_projection.pdf
- OK internet source after 'Access mode:' carries a full URL
- OK stdclsdv.sty byte-identical to the journal template
- OK tocloft.sty byte-identical to the journal template
- OK every change to VisnykAMI.tex is annotated (BUGFIX / original)
- OK UdcUkr bugfix still applied (stray \vspace* removed)
- OK section spacing bugfix still applied (no negative stretch on a positive before skip)
- OK inputenc switched to utf8
- OK page geometry untouched: \textwidth = 13.5cm
- OK page geometry untouched: \textheight = 20.4cm
- OK page geometry untouched: \oddsidemargin = 1.96cm
- OK page geometry untouched: \topmargin = 1.42cm
- OK page geometry untouched: \documentclass[10pt,a4paper,twoside,openany]{report}

- OK figures_en/invariance_summary.pdf matches the current output of build_figures.py (not a stale copy)
- OK figures_en/feature_distributions.pdf matches the current output of build_figures.py (not a stale copy)
- OK figures_en/side_comparison.pdf matches the current output of build_figures.py (not a stale copy)
- OK figures_en/pca_projection.pdf matches the current output of build_figures.py (not a stale copy)

Внутрішня узгодженість (6/6)

- OK every figure and table is referenced in the text
- OK no orphan sources in the bibliography
- OK every \cite has a \bibitem
- OK English body free of untranslated Cyrillic
- OK Ukrainian metadata block present at the end
- OK IMRAD structure complete

Походження чисел (звірка з outputs/) (30/30)

- OK map invariance 76.1% present in the text (outputs/invariant_features_summary.csv)
- OK map: count 35 of 46 present in the text
- OK version invariance 93.5% present in the text (outputs/invariant_features_summary.csv)
- OK version: count 43 of 46 present in the text
- OK side invariance 47.8% present in the text (outputs/invariant_features_summary.csv)
- OK side: count 22 of 46 present in the text
- OK sensitivity analysis: cs2 map-invariance 71.7% present (outputs/map_invariance_by_version.csv)
- OK sensitivity analysis: csgo map-invariance 76.1% present (outputs/map_invariance_by_version.csv)
- OK sample sizes 1820 (CS2) / 1666 (CSGO) in the text
- OK total sample 3486 in the text
- OK universally invariant count 33 in the text
- OK triple-invariant count 16 in the text
- OK Table 1 lists exactly the triple-invariant set recomputed from outputs/
- OK map: utility = 0.247 matches outputs/ (0.2471)
- OK map: utility_damage_per_round = 0.243 matches outputs/ (0.2428)
- OK map: flashes_thrown_per_round = 0.209 matches outputs/ (0.209)
- OK version: opening_deaths_per_round = 0.003 matches outputs/ (0.002961)
- OK version: utility = 0.004 matches outputs/ (0.003654)
- OK version: last_alive_percentage = 0.015 matches outputs/ (0.0152)
- OK version: assists_per_round = 1.8 matches outputs/ (1.801)
- OK version: support_rounds = 0.96 matches outputs/ (0.9634)
- OK side: opening_attempts = 0.001 matches outputs/ (0.000729)
- OK side: entrying = 0.005 matches outputs/ (0.004692)
- OK side: pistol_round_rating = 0.009 matches outputs/ (0.008622)
- OK side: saves_per_round_loss = 1.96 matches outputs/ (1.963)
- OK side: trade_kills_percentage = 1.0 matches outputs/ (1.004)
- OK side: saved_by_teammate_per_round = 0.98 matches outputs/ (0.9776)
- OK side: flashes_thrown_per_round = 0.97 matches outputs/ (0.9703)
- OK per-feature effect sizes cross-checked against outputs/ (15 values)
- OK no one-decimal percentage without a source in outputs/

Перевірити вручну (машині не доступно): звіт про плагіат; відсутність другої статті того самого автора в цьому ж випуску; обсяг статті та дедлайн випуску, уточнені в редакції (видання їх не публікує); повідомлення редакції про два баги їхнього шаблону.
